good evening senator, big day today, the concrete floor was poured for the garage. strange how such things become so important and each addition becomes a small triumph. by the end of the week all the walls will be up, the kitchen floor(new addition), ceiling of the garage and hopefully the new roof over the addition will be complete. we will have the electrical and the plumbing done by next week and will be finishing the changes upstairs and bringing in the sheetrock. that is my goal for the next two weeks. augie peone's crew is working like beavers and he is such an easy fellow to get along with. you may know augie, he lived in girdwood for about 20 years and does a lot of construction in the area. he certainly is one of your ardent fans. everything is going so smooth thanks to rocky, bill and augie. i went over and got all the pieces of the "tree" out of butch west's yard today, you have firewood for the next umpteen years. i just called the telephone company to get your telephone reconnected so catherine will have one when she gets here. my best, bob
